

Superfine sander with linear (not rotary) sanding motion.

Pensander PS 13

This superfine sander with linear sanding motion (versus rotary or orbital) operates at 8,000 strokes per minute with a 3/32" (2.5mm) stroke. It is ideal for surfaces, slots and tight corners. Included are four sanding attachments with straight shanks and 4 with angled shanks (four different shapes per shank style) as well as 3 sheets of preprofiled adhesive sanding pads. The sheets are 180, 240 and 400 grit with 5 of each shape per sheet.

Technical data:

Direct voltage	12 - 18V
Speed	8,000 strokes per minute with 3/32" (2.5mm)
Length	6.3" (160mm)
Weight	0.29 lb (130g)

Note:

An AC adapter of at least 12 - 18V DC and 1.0A is required. We recommend PROXXON power supplies **NG 2/S** or **NG 5/E**. The electronic speed control on the NG 5/E unit allows the selection of different speeds for different applications and materials.
