

High performance MICROMOT Flexishaft - with triple ball bearings for speeds up to 25,000rpm.

MICROMOT Flexishaft 110/P

Two ball bearings in the turned light aluminum hand piece and one in the drive end prevent bits from chattering. The highly flexible shroud and core effortlessly transmit power without heating up even when bent tightly. Anti-kink springs at the grip and drive end. The flexishaft comes with 6 MICROMOT steel collets in sizes 1/32", 1/16", 5/64", 3/32", 7/64" and 1/8" (1.0, 1.5, 2.0, 2.4, 3.0 and 3.2mm). The drive shaft is 7/64" and so either fits our 7/64" steel collet or our chuck.

NO 28 620

MICROMOT Flexishaft 110/BF

As described above, but with 1/64" - 1/8" (0.3 - 3.2mm) keyless chuck. Practical when working with different shaft diameters.

NO 28 622
